EXPERIENCE

Softice Technologies Pvt. Ltd.

Lucknow, Uttar Pradesh

MERN Stack Internship

Jan 2024 – April 2024 (4 months) | Full-time

- At Softice Technologies, I refined my web dev practices and gained experience in full stack development skills.
- I have solely developed a Note App **"Notely"** from Frontend to Backend. Building up all logics and the UI of the web app. This has significantly strengthened my skills in System design, Testing, and Deployment.
- It has features like Creating, Reading, Updating and Deleting Notes, User Authentication and Protected Routes.

Quaere E-technologies Pvt. Ltd. (CMMI Level 3)

Lucknow, Uttar Pradesh

PHP Internship

June 2023 – Aug 2023 (2 months) | Full-time

- Practiced a full stack development by learning HTML, CSS, JavaScript, jQuery, PHP, Bootstrap.
- Build a **"Library Management System"**: - Admin Can Add Publisher, Author, Book Name and can Assign books and track student.
- I contributed as a Quality Analysts on a **"Kanpur Smart City"** live project and evaluated the user interface and data flow process.

PROJECTS

[View All](#)

- Klimate** - A sleek and user-friendly weather app built with React, providing real-time weather updates for any city worldwide. It fetches accurate weather data using OpenWeatherMap API and features a responsive design for seamless use across devices.
- Trimrr** - A sleek and efficient URL shortener app built with modern web technologies. It allows users to shorten long URLs, manage them easily, and access them instantly.
- Cineck** - A sleek and fast movie search web app that fetches real-time data from an API and cache it, allowing users to discover movies by title, view details like ratings, release date, and synopsis, and explore trending films effortlessly through pagination.
